

Compliance Audit Trail Report

Organisation: Shahriyar's Organisation
Exported: 24 May 2026 at 15:44 UTC
Total records: 3

CHAIN INTACT - All records verified

Summary

Field	Value
Total audit records	3
First record	24 May 2026 13:35 UTC
Most recent record	24 May 2026 13:40 UTC
Chain integrity	Verified - unbroken
Verification method	SHA-256 hash chain
Generated by	EU AI Act Governance Platform

Audit Records

Each row is one compliance assessment. Hash shows first 16 characters of the SHA-256 record hash. Chain column verifies this record links correctly to the previous one.

#	Timestamp	Action	System Name	Hash (first 16)	Chain
1	2026-05-24 13:35	classification	HR Tool	3baba6de5a13ca84...	OK
2	2026-05-24 13:40	classification	HR Tool	81997486c63d96e0...	OK
3	2026-05-24 13:40	classification	HR Tool	7801f3f08efe56fe...	OK

This report was generated automatically by the EU AI Act Governance Platform. The hash chain uses SHA-256 cryptographic hashing. Any modification to a stored record after creation will cause the chain verification to fail, providing tamper evidence. This document may be presented to regulatory authorities as evidence of compliance monitoring.
